

Raptor

Raptor is the newest software application offered by ABM Data Systems. Raptor allows customers to log radio traffic for emergency responders, such as police officers, firemen, and ambulance EMT's. Raptor can also be used by private security firms to monitor radio communications between officers and the base station.

Features

- * Easy entry of Radio Assignments
- * Logs an entry each time a radio transmits
- * Can "Flag" radios that have been lost or stolen.
- * Easy retrieval of archived data
- * Custom Report Designer

Feature Product

Technical Specifications

These specifications are the minimal requirements for this product.

High account or signal volume may require more robust hardware configuration (if more than 3,000 accounts or over 10,500 signals a month).

All hardware components must be listed on the Microsoft Hardware Compatibility List for Windows 2003. Current as of 05/14/10, these specs are subject to change without notice. Call ABM Technical Support for up-to-the-minute specs.

Software Requirements

Windows Server 2000* SP4, Windows 2003, Windows Server 2008, Windows XP Pro with SP2 or higher or Windows 2007 Pro.

Microsoft SQL Server 2000/2005/2008 or MS SQL Express
IE7 or better

Hardware Requirements

Pentium class single processor or equivalent (must perform at 500 MHz or higher)
4 GB RAM
(2) 80 GB or higher Hard Drives
CD/RW ROM Drive
20/40 GB DAT 4mm Tape Drive or CDR's 17" Color

Number of Licenses

Unlimited
A license is required for each concurrent workstation and each concurrent receiver

Number of Radios

Unlimited

**Advise referenced by ABM DATA SYSTEMS*

* Windows 2000 required for faxing functionality.

** Servers must have a serial port for each Phoenix receiver license. For redundant systems, PCI port cards may be used. PCI cards must be identical for each server and an A/B switch is required. ABM recommends Digiport Servers for port expansion. A Digiport Server must be installed on the network and requires a separate IP address.

Microsoft, Windows 2000/2003 are either registered trademarks or trademarks of the Microsoft corporation in the U.S. and/or other countries.
